

PVJ POWER SOLUTIONS

PERSONAL PROTECTIVE EQUIPMENT

Personal Protective Equipment (PPE) includes all clothing and accessories designed to protect against workplace hazards. In some situations the only available protection for employees will be the use of PPE and often in emergencies, PPE will be required for the safety of the workers.

As required by federal and state regulations, personal protective equipment is essential for the protection of eyes, ears, face and other body parts when working around hazardous machinery and equipment.

All Personal Protective Equipment (PPE) is provided by PVJ POWER SOLUTIONS. Employees are not allowed to provide their own PPE unless authorized by the Safety coordinator. As a general rule, only company provided PPE is allowed.

Hazard Assessments have been completed throughout the production and warehouse areas of PVJ POWER. PPE is required in the following areas:

Fabrication Line

Production & Testing

Store & Dispatch

Panel Fabrication line

Core & Assembly area

Housekeeping
